Targets compromised: 11
Ranking: Top 50%

MODULE		PROGRESS
	**Intro to Academy** 8 Sections · Fundamental · General Your first stop in Hack The Box Academy to become acquainted with the platform, its features, and its learning process.	100% Completed
	**Learning Process** 20 Sections · Fundamental · General The learning process is one of the essential and most important components that is often overlooked. This module does not teach you techniques to learn but describes the process of learning adapted to the field of information security. You will learn to understand how and when we learn best and increase and improve your learning efficiency greatly.	5% Completed
	**Linux Fundamentals** 30 Sections · Fundamental · General This module covers the fundamentals required to work comfortably with the Linux operating system and shell.	100% Completed
	**Introduction to Networking** 21 Sections · Fundamental · General As an information security professional, a firm grasp of networking fundamentals and the required components is necessary. Without a strong foundation in networking, it will be tough to progress in any area of information security. Understanding how a network is structured and how the communication between the individual hosts and servers takes place using the various protocols allows us to understand the entire network structure and its network traffic in detail and how different communication standards are handled. This knowledge is essential to create our tools and to interact with the protocols.	61.9% Completed
	**Using the Metasploit Framework** 15 Sections · Easy · Offensive The Metasploit Framework is an open-source set of tools used for network enumeration, attacks, testing security vulnerabilities, evading detection, performing privilege escalation attacks, and performing post-exploitation.	20% Completed
	**Windows Fundamentals** 14 Sections · Fundamental · General This module covers the fundamentals required to work comfortably with the Windows operating system.	21.43% Completed
